CLASS

Soundtect proudly introduces our new range of acoustic panels.
‘CLASS’ – Understated Elegance adds another dimension to **Soundtect’s** existing range of acoustic wall panels.

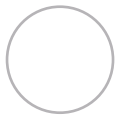

SOUNDTECT CLASS

An educated combination of design, affordability and performance, Soundtect’s CLASS is the perfect choice for architects, clients and contractors. Providing a superb 0.95 NRC, these quick and easy to install acoustic panels from Soundtect provide superb sound absorption in any education and commercial project.

Manufactured from the same environmentally friendly material as the highly desirable range of Soundtect 3D panels, the all new Soundtect CLASS range is also complimented by “CLASS ABOVE” a stunning range of baffles and rafts. Undoubtedly the most cost effective high quality high performance wall panels, baffles and rafts welcomed by many clients globally.

INSTALLATION FLEXIBILITY

CLASS offers endless installation possibilities:

- Mount on walls
- Arrange and combine in various formation
- Suspend from ceilings
- Layer in varying depths to create dramatic space
- Soundtect brackets allows easy installation

CLASS A ACOUSTIC PERFORMANCE

- Brand new CLASS A range of acoustic panels
- walls and ceilings
- Sustainable design for environmentally conscious projects
- Cost effective solution for large installations

ENVIRONMENTALLY FRIENDLY

Using the same tried and tested recycled PET bottles as our existing range, CLASS remains fully Recyclable with 50%+ Recycled content.

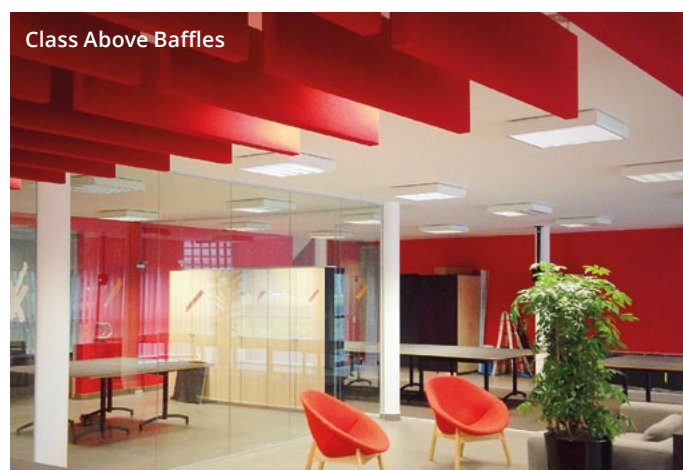

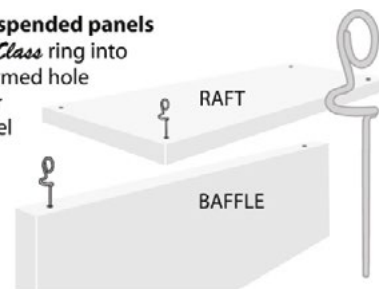

RAFTS & BAFFLES

Not only are the panels unbelievably cost effective and aesthetically pleasing but the ease and speed of installation means that the new range from Soundtect is in a 'Class' of its own.

- Class A 0.95 NRC
- Design and installation flexibility
- Available now in a range of sizes & colours
